SAFETY PRECAUTIONS

Please take time to read the important instructions in this booklet. Observing the step-by-step instructions and complying with the warnings will be your personal guarantee to greater game satisfaction over a long period of time.

SAFETY PRECAUTIONS

1. Avoid subjecting this high precision GAME PAK to extreme temperature variances. Store at room temperature.
2. Do avoid touching terminal connectors. Keep clean by inserting GAME PAK in protective storage case.
3. Never attempt to disassemble your GAME PAK.
4. Use of thinners, solvents, benzene, alcohol and other strong cleaning agents can damage the GAME PAK.
5. For best results, play the game a distance away from your television set.
6. Pause for 10-20 minutes after 2 hours or more of continuous game playing. This will extend the performance of your GAME PAK.
GETTING STARTED

1. Insert the RESCUE RANGERS cartridge and turn on your Nintendo Entertainment System. The title page will appear and you may choose one or two players. If you wish to play only one character, you can choose to be either Chip or Dale. Press START to make your selection.

2. The story will begin here. Chip, Dale, Gadget, Monterey Jack and Zipper are discussing their new case. To move the conversation along, press A. If you wish to move past the dialog, press START.

3. The game will begin at this point, and your character(s) will begin the first level.
CONTROLLING CHIP OR DALE

The controls for the RESCUE RANGERS are quite simple, but true mastery takes both practice and skill. Pushing **RIGHT** and **LEFT** on the controller moves the character right or left. This works even when he is jumping or falling. Remember this! It is a very important feature.

Press **A** to jump. Press **B** to pick up objects. Pressing **B** while holding objects allows you to throw them right or left. You can throw objects upwards by pressing **UP** on the control pad when you press **B**.

Press **DOWN** to make character duck down.

---

CONTROLLING CHIP OR DALE

If you press **DOWN** on the control pad while you are holding a box, you can "hide" in the box until an enemy touches it. If this happens, you will defeat that enemy and lose the box you were holding. **NOTE:** this will not work against all enemies!

Press **DOWN** on the control pad and **A** together and you will jump down.

Pressing **SELECT** shows: which player(s) have been selected, the amount of Flowers and Stars that have been collected, and how many characters are left for the player(s).

Pressing **START** pauses the game.

Each player starts with three hearts per character. When a player is damaged (loses a heart), he will be invulnerable for a moment. Take advantage of this time to get by a tough situation.
SPECIAL ITEMS

The following items are found throughout the game:

**Flowers**- Collect as many of these as you can! For every 50 flowers you collect, a 1-up star appears.

**Stars**- For every 10 stars collected, a 1-up star appears.

**1-Up Star**- When touched by a player, you get one extra character.

---

SPECIAL ITEMS

**Acorns**- Gives an extra heart to the player.

**Crates**- Use these to hide in or throw towards enemies. Some enemies require more than one box to be defeated.

**Steel Boxes**- These can be used to stack on top of each other to enable the player to jump higher than normal.

**Black Balls**- Player must throw these quickly!
